Awareness Program for Government Welfare Programs (Dr Ambedkar Jyanti)

❖ Women Welfare Programs

JAN SUKH SAGAR FOUNDATION has been conducting meetings in the community for creating awareness for Government Welfare Programs and its purposes. Through these programs Indian citizens giving them the rights to access information and services they need from government. Because ignorance and lack of knowledge of the rural/slum people who were often deprived of their rights and incurred huge transactional costs for making several visits to access info/services from public offices for issues related to their livelihood security and basic needs. With the help of these programs the people are seeking information from various authorities in order to ascertain and verify the truth.

JAN SUKH SAGAR FOUNDATION is an NGO that works for the welfare of poor children in India. Children are the future of a nation. Education for poor children is a dream mission for the organization. It focuses on basic education for poor children and youth and makes it possible for an individual to sponsor the cost of education or total. Children are entitled to a free, quality basic education. Recognizing this entitlement is necessary to be known by every child of our nation.

In continuation with its goal of "Education for All", **JAN SUKH SAGAR FOUNDATION** has been running free tuition centers for marginalized children. The organization has been working for improvement of educational status of rural and tribal poor. From the last few years, it has been running free tuition centers at Bundelkhand and Jhansi for rural and SC/OBC students. We, apart from providing education to poor children, also analyses vulnerability situation of those children. In the targeted areas, SC/ST community of people stays in distant colonies from the main village. Most children in our target communities are studying in government schools.

Coronavirus disease (COVID-19) is an infectious disease caused by the SARS-CoV-2 virus. Most people who fall sick with COVID-19 will experience mild to moderate symptoms and recover without special treatment. However, some will become seriously ill and require medical attention.

Lack of clinical trials for the vaccine, fear of vaccine side effects, and rumors of the presence of active viruses in vaccines are some leading obstacles that obstruct the success of the COVID-19 vaccine campaign. Vaccine hesitancy is a major obstacle in the face of the COVID-19 vaccination programs.

❖ Covid-19 Free Mask Distribution & Vaccination Awareness Program

Measurement of the population's general knowledge of the coronavirus vaccine is very important to improve public acceptance and decrease vaccine hesitancy in confronting the disease. This study aimed to evaluate the knowledge, attitude, and practices of the participants towards the coronavirus vaccine. The hesitation towards vaccination with the COVID-19 vaccine remains a problem worldwide. Lack of clinical trials for the vaccine, fear of vaccine side effects, and rumors of the presence of active viruses in vaccines are some leading obstacles that obstruct the success of the COVID-19 vaccine campaign. Vaccine hesitancy is a major obstacle in the face of the COVID-19 vaccination programs.
